EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Sarah E. Smith on January 24, 2007.

The application has been amended as follows:

In claim 1, in line 17 after "half the rope diameter" inserted --wherein said bridge element comprises a separable yoke linking an end of a wing of the first U-shaped element to an adjacent end of a wing of the second U-shaped element, and wherein said clamping means clamps said yoke on said second rope--.

Canceled claim 5.

2. The following is an examiner's statement of reasons for allowance:

As to claim 1, Wood (US 806,721) discloses the claimed method for making retaining net knots with the exception of wherein the bridge element comprises a separable yoke linking an end of a wing of the first U-shaped element to an adjacent end of a wing of the second U-shaped element, and wherein the clamping means clamps the yoke on the second rope.

There is no teaching or suggestion, absent the applicant's own disclosure, for one having ordinary skill in the art at the time the invention was made to modify the method disclosed by Wood to have the above mentioned elemental features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
